

# GALAXY-HP TAIL LIGHT

SUNLITE

CG-126R / 913606

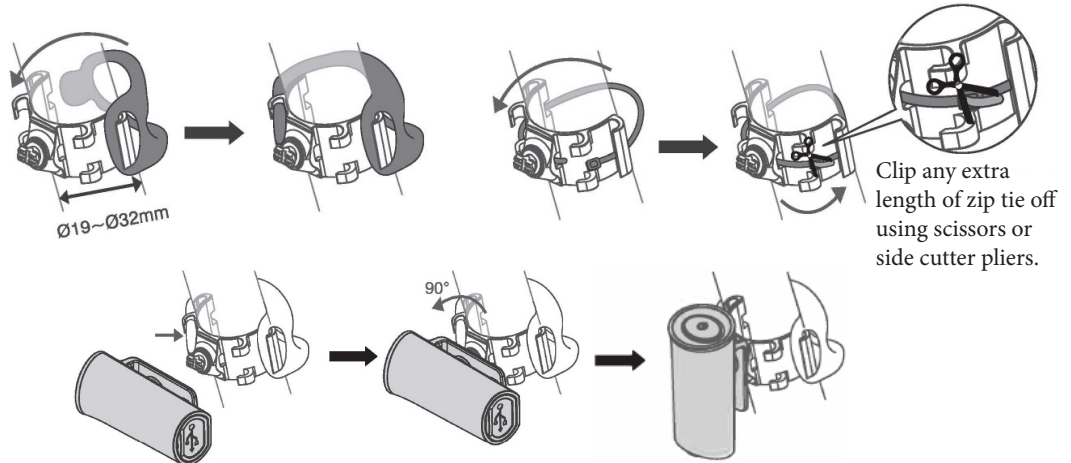

Includes:

- Rear Light
- Attachment Bracket
- Rubber Pad
- Silicone Strap
- Zip Ties x2
- USB Charging Cable
- Valcro Strap

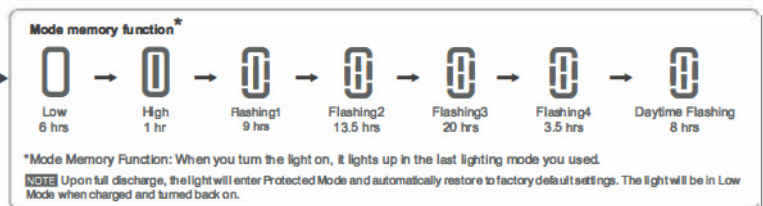

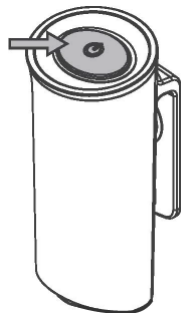

## Installation

1. Install the light mount using the included ring strap or a zip tie.
2. Once mount is installed, place light onto mount and turn 90° to lock in place

## Function

- Press the power button for 1.5 seconds to turn power on and off.
- Click the button briefly to cycle through modes.
- Mode memory returns to last used mode when turned back on unless light has been fully discharged.

## Charging & Battery

**3-Level battery check function shows remaining power.**

### Power OFF:

Double click the power button to check remaining battery

- Constant : 100% - 50%
- Slow flash : 49% - 25%
- Fast flash : 24% - 0%

### Low Battery Alert

Less than 25% battery remaining

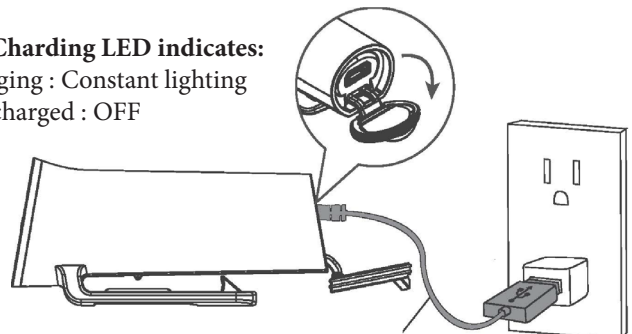

- In constant mode: Circular flashing
- In flashing mode: pulsed constant lighting

To charge, remove the rubber plug on the bottom of the light and connect to power via the included power cable.

### While Charging LED indicates:

- Charging : Constant lighting
- Full charged : OFF
