

Brake Caliper

Instruction Manual

BR002

Please read all instructions before installing and using your brake caliper.

Warning ⚠
Failure to install your brake calipers properly may result in serious injury/death and or damage to your bicycle.

Installation/Use

1. Insert the caliper mounting bolt through the mounting hole in the frame or fork and tighten from the other side with supplied nut.
2. Slide cable through the Barrel Adjuster and then through the Quick Release Lever in the Open position.
3. Compress the arch until brake pads are in full contact with the rim and set the Quick Release Lever to the Closed position while compressing.
4. Center the brake pads with the rim by turning the Centering Adjustment Bolt either clockwise or counterclockwise.
