

Park Tools SBK-1 Press Kit Contents:

- Includes extractor cups/drifts for the following ODs:
 - 16mm
 - 17mm
 - 19mm
 - 20.6mm
 - 21mm
 - 22mm
 - 22.3mm
 - 24mm
 - 26mm
 - 28mm
 - 28.6mm
 - 30mm
 - 32mm
 - 35mm
- Includes extractor studs and pilots for bearings with the following IDs:
 - 8.5-9mm
 - 10mm
 - 12mm
 - 12.7mm
 - 15mm
 - 17mm
 - 20mm
- Magnetic back plate for easy configuration and assembly
- Organized in a convenient storage case

NOTE: For bearing extraction, the SBK-1 requires a minimum of 3mm of flat linkage structure outside the bearing to support the extractor cup/drift. For bearings without this flat structure, consider using the Park Tool SHX-1 Slide Hammer Bearing Extractor.
